Subject : Announcement of International Congress

BOMANYA ARŞİV FEDERASYONU'NA

"International Congress on Management of Cultural Archive Heritage on Ottoman Geography and Role of Title Deed Archives" will be held between 21 and 23 November 2012 in Istanbul and our Institution will host this organization.

It is targeted to address preservation, maintenance of archives, making them electronically available and technological developments on this area as well as revealing importance and value of our cultural heritage during the Congress. In addition, Kuyûd-ı Kadime Archive having a deep-rooted history for six hundred years, serving under the Record Department of our Institution and containing economic, socio-cultural and demographic information of nearly thirty countries on three continents is one of the most important titles of the Congress. To interested persons who want to prepare notification for the Congress: classification of Kuyûd-ı Kadime Archive was completed and researchers will have the opportunity of utilizing from open collections.

It is planned to gather not only the states and institutions containing the archive heritage of Ottoman Empire but also the organizations dealing with modern record keeping with a common culture, history and civilization understanding. Therefore, an important step for sharing, discussing common values and making them available for science will be taken.

Participation to the Congress is free of charge. Domestic-abroad transportation, accommodation and subsistence allowance of researchers who is included in Scientific Program of Congress after accepting his/her notification and whose notification will be included in Congress Notification Book and CD will be met by the congress organization.

Simultaneous translation will be provided during the Congress where Turkish and English presentations will be realized. You can find detailed information on issues such as participation conditions, rules for notification on www.tkgmkongre.org web address.

Through the congress organized by our Institution which directs its activities with its vision renewed on the basis of easy access to information and documents and accuracy principles and human based understanding, an important step will be taken and this step can be an example in that archives which are public institutions will be present in scientific studies and also they will be at the very center of such activities.

All interested legal and real persons, particularly universities, public institutions and agencies, foundations, associations, private libraries and archives dealing with record keeping and history research are invited to the congress which is scientific in terms of content and also which is expected to be base for new developments in terms of its outcomes.

I kindly present for your information.

Davut GÜNEY
General Director
